

PHYSICIAN TO THE PRESIDENT
THE WHITE HOUSE

2 August 2022

MEMORANDUM FOR: KARINE JEAN-PIERRE
ASSISTANT TO THE PRESIDENT AND
WHITE HOUSE PRESS SECRETARY

FROM: KEVIN C. O'CONNOR, D.O., FAAFP
PHYSICIAN TO THE PRESIDENT

SUBJECT: President Biden SARS-CoV-2 Update

The President continues to feel well, though he is experiencing a bit of a return of a loose cough. He remains fever-free and in good spirits. His temperature, pulse, blood pressure, respiratory rate and oxygen saturation remain entirely normal. His lungs are clear. Given his rebound positivity which we reported Saturday, we continued daily monitoring. This morning, his SARS-CoV-2 antigen testing remained positive.

The President will continue his strict isolation measures as previously described.

He will continue to conduct the business of the American people from the Executive Residence. As I have stated previously, the President continues to be very specifically conscientious to protect any of the Executive Residence, White House, Secret Service and other staff whose duties require any (albeit socially distanced) proximity to him.

As promised, I will keep your office updated with any changes in his condition or treatment plan.

Respectfully submitted,

Kevin C. O'Connor, D.O., FAAFP
Physician to the President
The White House

Associate Professor, The George Washington University School of Medicine & Health Sciences
